Using Custom Ranking on POL to Build Event Attendance

Challenging contest leaders is a great way to enhance your event attendance. Simply ask those on your chicken list including friends and family: “I am getting recognized for my work would you be able to come to the event and support me?” Who would say no?

Custom Ranking allows your team to look at the standings for the current event contest. Each RVP in a group will be on the distribution. We typically set up the report to print weekly which means each Monday morning the report will appear. The report can also be run on a daily basis which is up to the hosting RVP.

Follow these simple instructions to access your standings:

Log on to your POL account

Click the MY POL tab

Click Bulletins and Reports

Click Unread Reports

Click Custom Ranking

The report will open - in most cases you have to click OK

The report will populate as an Adobe File

You can save it, email it, and print it

Remember, only RVPs participating in the event are on the distribution.
